

safety jars instructions

TO CLOSE

Fill jar with your product, then put the new cap by pressing until you hear the click (fig. 1,2)

After that, jar will be opened only by removing the safety strip, to preserve inside content

TO OPEN

Break the seal (fig.3), then tear the safety strip completely away (fig. 4)

Now hold jar tightly at its bases with one hand and, with the other one, turn the cap (fig.5) while pulling it up (fig.6,7).

After use, close the cap by pressing it.
